

SUMMARY – 04SEPT20

Gestion de Project – Overall WoW

- Each week, we start by a short summary of last Friday course and few questions will be asked (same kind of questions than you will have in the final EXAM / QCM) → This week summary will be sent also.
- Each chapter / any other document shared will be posted on slack :

- Update of Courses Calendar :
 - End of the courses on 13NOV20 as :
 - Absent last week
 - No course on W2042 (16OCT) and W2044 (Vacations)
 - Exam1 : W2043 (Exercises only)
 - Exam2 : W2046 (Final QCM)

Chapter 2 : Project

- A Project is defined by :

- ↳ Clear objective with Specific Delivery

- ↳ Unique

- ↳ Time delimited : with a START and an END

- ↳ It operates within defined boundary conditions

- ↳ Coordinated effort (inter-related / cross functional ...)

- **Project Scope :**

- describes the boundaries of your project
 - It is included into contractual agreement between the client and the service provider (ex : Statement of Work (SOW))
 - To well define the scope of a project, ask the 7 Questions: Who / What / When / Why / Where / How / How Many ?
